Subject: RE: ORD PFAS geoplatform webmap1: NJDEP Soil Sample Locations v1

Hey John,

You're welcome, and Annie was also not able to access. It seems easier to publish a map to the GPO than to figure out the permissions!

SharkTank PFAS geospatial team,

Here's a [link to a simple PFAS webmap](#) on the EPA GeoPlatform (GPO). You access it through a web browser and LAN id/password. GPO webmaps will be where we will share and coordinate our ORD PFAS data analysis. (See screen capture below.) You can interact with the map, pan, zoom, add different basemaps, etc. This simple map just shows NJDEP sample locations and sample number, plus Chemours and Solvay locations.

Chandra, Annie and Andy- you are already in the GPO system and have been given access by being in this GPO group: PFAS_ORD_geospatial

Tim, John, and Haile, you may need an extra step to get authorized if its your first visit to GPO.

How do I get to the GeoPlatform?

Use your EPA LAN account to log in. If you have an EPA LAN account, go directly to [EPA GeoPlatform Online Sign On page \(https://epa.maps.arcgis.com\)](#)

Explore!

Drew
